Vol. VIII, No. 9

September 1964

AUGUST UNIFORM PRICE \$4.01

Dairy farmers will receive a uniform price of \$4.01 for August 1964 deliveries of Grade A milk to handlers under the South Bend-LaPorte-Elkhart, Indiana, milk order. The uniform price is based upon a butterfat test of 3.5 percent, and will be adjusted by a differential of 7.1 cents for each one tenth percent that tests vary above or below the 3.5 percent standard. The minimum price is subject to a 4 cent per hundredweight marketing service deduction, together with the authorized hauling charge. This price is 16 cents higher than the July 1964 price and is exactly the same as the uniform price of a year ago.

PRODUCER RECEIPTS

Daily average deliveries of producer milk decreased 4 percent from the July delivery period, but are the same as a year ago. Daily average herd production was up 81 pounds from a year ago, but 31 pounds less than July of this year. A decrease of 63 producers on the market, along with the increase in daily production, brings us out to the same total of a year ago. The Class I utilization of producer receipts was 1.7 percent less than a year ago, which accounts for the same uniform price with a 3 cent higher Class I price.

ORDER CHANGES

The first of August was the effective date for the amendment to the order concerning compensatory payments. The main changes resulting from this amendment are, namely, a different method of handling bulk milk from another Federal Order, other source milk from an unregulated supply, and other Federal Order packaged milk received by a handler. Down allocation on practically all other source milk was in effect before this amendment became effective. This amendment is supposed to make for more equity among handlers, regardless of their source of supply.

CLASS I PRICE

The Class I price for the September 1964 delivery period will be \$4.39 per hundredweight for 3.5 percent milk. The price was computed by adding \$1.30 per hundredweight to the basic formula price (\$3.15), minus the 6 cent supply-demand adjustment. The supply-demand adjustment for the October 1964 delivery period will be a minus 6 cents.
